# GLADS FOR 1949

BRUCE COLLINS      3375 River Road      Utica, Michigan

Colonial Dame

GREETINGS to all you old timers, and to the thousands of new addicts, who have joined the ranks during the past few years:

Thanks for your 1948 orders, and we hope the bulbs grew well, and that we will hear from you again this season. Our growing season was just about normal, except for some extremely hot weather, and drouth in late August and early September. However, our bulbs were planted quite early, and so were well developed before that time.

In my private Trial Garden, I grew 241 recent and 1948 Introductions along with several seedlings from various growers. Practically all of them proved to be good, and some were of course outstanding. In that way, I am able to compare them with the older proven commercials and know whether or not they really are better.

All stock is State Inspected. No dips used. Just good clean healthy corms.

## MY TRIAL GARDEN

During the 1948 season, I as fortunate in having 241 new and recent introductions, plus some seedlings on trial in my trial garden. You might be interested in a report on them.

In whites, Florence Nightingale was tops, and will be grown by everyone eventually. Mary Kathleen is perhaps the finest dead white performer, White Magic, White Christmas; and White Goddess; easily the finest heavily ruffled whites; and all good performers. Violet Dickinson and Stratosphere, also Leading Light are tops for basket work, and exhibition; and will be grown by everyone; whe stock is cheaper. White Challenge with it's rose tint is a topnotch performer; and a MUST for the commercial grower. Peggy Farrell with its ruffling and pointed petals, and cherry throat, is one of the finest.

In yellows; hard to beat Spotlight for a commercial yellow, and the price is now down to where everyone can and should grow it. Golden Arrow is Tops, Rauschgold from Pfitzer very fine, Golden Standard opens 10 with balance in color, Gleam has a fine flowerhead, could be taller; while Yellowbird is the best of the miniatures. Perdita is one of the best new originations.

In reds, the new Syrocket topped the list for brilliance, and height; Royal Windsor, one of the finest recent introductions, Red Cherry will eventually become a topnotch commercial, Red Charm always dependable, Algonquin our best low priced exhibition. For an early cutter, and basket glad; Rhett Butler tops the entire list.

In pinks, we have a tremendous choice; but certain varieties stand out in my mind. Straussenfeder, from Pfitzer was superb with its ruffling, and pointed petals; and tremendous size. Evangeline was tops in its class; Cleo very fine, Regal Lady, perhaps the most beautiful spike; the new Jini Marie will leave you breathless, Joyce Beverly, slated to become a great commercial, Yankee Lass is one to be reckoned with; Heart's Desire; is the most heavily ruffled pink and cream, Pink Lady, one most growers have overlooked; but will beat a lot of the pinks; June Day the earliest pink; comes in for me in 55 days. The new Seashell is trully a seashell pink; Gaylore should be a great commercial, and Citation, will bring home the bacon for a tall, clean pink commercial or exhibition. Phantom Beauty; the finest blush pink in the class.

Lavenders are showing up in quantity now, and Huntress still tops the list for earliness. Siboney is grand, especially for exhibition; the new Myrtle Grace is almost as early as Huntress; and a better commercial; while Colonial Dame is later, but a true lavender with long flowerhead and straight as a gunbarrel. Wedgwood is tops in its class, a great basket glad; while Grand Opening is still hard to beat for exhibition. Abigail is a great commercial, and propagates like mad.

Percy Barrett

Spindrift tops the cream class, but Charlotte Russe is the most heavily ruffled cream, and Ivy; an improved Ivy Robertson, will give you the long spikes; and better color; making it a great commercial. Lady Jane, still leading the list of low priced commercials.

Oranges are also improving. Here we have a new comer that will take the ribbon for a commercial, in Sunbeam. Daisy Mae, Lakeside Orange; Gratitude; and the newer Orpheus is one of the most beautiful.

In the buff shades, Sunspot leads the list; with Sunlight running second; Debutante; Grenadier; all good.

Stormy Weather leads the smokey list, and is about the best for florists use.

Many new seedings on trial showed great promise, and of course I have not mentioned many of the old reliables; which are too well known to mention here.

**MY 1949 INTRODUCTIONS ARE THE FINEST I HAVE  
EVER INTRODUCED, AND I RECOMMEND  
EVERY ONE OF THEM TO YOU!**

**FROM MR. PERCY BARRETT, VERDUN, QUEBEC, —**  
one of America's outstanding Hybridizers, I offer the  
following:

**SKYROCKET: (500)** A Tall medium, brilliant red; formal type; 5½ to 6 inch florets; ruffled; 18 to 24 buds, flowerhead 28 inches; field height 70 inches; holds 8 open; 6 in color. It was the outstanding red in my garden for two years. Blooms in 80 days.

**CHARLOTTE RUSSE:** Tall, ruffled and pointed petalled cream; with rose tints, formal type, 5½ inch florets, 20 buds; 8 open and 6 in color; flowerhead 24 inches; field height 62 inches. I is the richest colored cream glad I have ever grown. Blooms in 80 days.

**MYRTLE GRACE:** Rose lavender, very early, ruffled, wide open florets; formal type, 4½ to 5 inch florets, 20 buds, 10 open and 8 in color. The best early lavender I have ever grown. Blooms in 70 days.

**COLONIAL DAME:** Ruffled and frilled lavender, the outside about the color of Minuet, with a deeper throat. Hold 10 to 12 open and the balance all in color. Flowerhead is 30 inches; with from 22 to 26 buds, straight, perfect placement, field height 55 inches. Easily the finest lavender I have ever grown; and one you cannot afford to pass up. Blooms in 95 days.

**JINI MARIE:** Named for my little granddaughter, and one of the most beautiful, heavily ruffled salmon pinks, with deeper throat in commerce. Formal type, 5½ inch florets, 22 buds; 10 open with 8 in color. Flowerhead 25 inches; field height 60 inches. This is really, one of the best glads I have ever seen or grown in my nearly 40 years of growing.

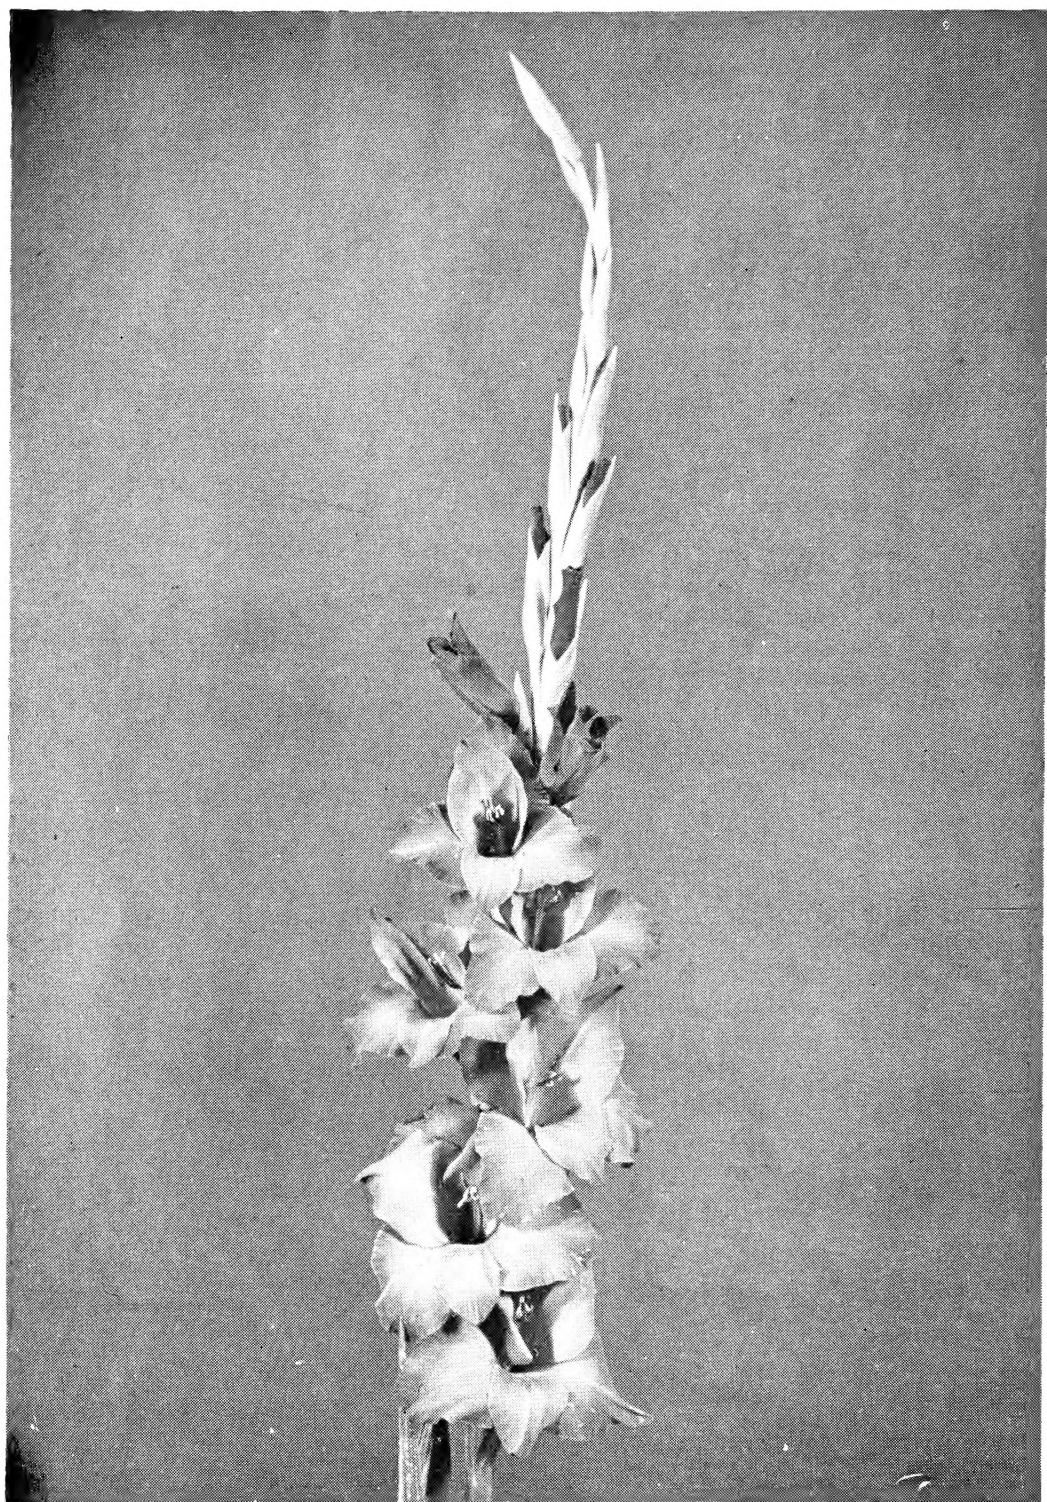

**IVY:** A very much glorified IVY ROBERTSON, and one that will go places as a commercial. A well defined pink and cream blend; with a nice rose throat, ruffled, tall, wide open 4 inch florets. 22 buds; with 10 open; 8 in color; field height is 60 inches; flowerhead 25 inches; straight as a ramrod.

Prices on all above to put them in reach of everyone, and this low price must not be misunderstood, as to their value. All of them are better than many glads which I have paid \$10.00 each for, but the stocks are sufficiently large to price them this way:

**LARGE \$2.00; MEDIUM \$1.50; SMALL \$1.00; EBTS. AT 2 FOR 25c**

10 bulbs at 8 times the one price; Grower units available on request.

Sky Rocket

## **FROM ARNOLD MALOW, A KUHN ORIGINATION**

**SUNBEAM:** The finest Orange commercial I have ever grown. Grows from 54 inches to 60 inches tall; with 24 inch flowerhead; opens 6 easily with 6 more in color. Wide open florets; 4 inches; brilliant orange; with canary yellow feather in throat, that lights it up, early, 75 days; every spike as straight as a gun barrel. This is the early orange commercial you have been waiting for.

**L. \$2.00, M. \$1.50, S. \$1.00, BBTS. 2 FOR 25C**

**GROWERS UNIT, 3 CORMS & 100 BBTS. \$10.00**

**DARLA: (461)** Light rose, with deeper throat, 18 to 20 buds, 22 inch flowerhead, on 46 inch plant, 7 open, 6 in color; wonderful attachment the perfect early rose cutter, florists are crazy for it, comes in, in 70 days, bulblet production and germination excellent. A MUST HAVE for the cut flower grower.

A Large stock permits this low introductory price:

**L. \$2.00, M. \$1.50, S. \$1.00, BBTS 2 FOR 25C**

**GROWERS UNIT, 3 CORMS & 100 BBTS. \$10.00**

**ENCORE: (F-424)** Deep salmon orange, shading to near scarlet at petal edges. Conspicuous dark red blotch, shaded yellow. Heavily ruffled, with pointed tips, and raised midribs. 18 to 20 buds; on a 24 inch flowerhead, carrying 7 open, with 6 in color. Field height 54 inches. Bulblet production and germination excellent.

**L. \$2.00, M. \$1.50, S. \$1.00, BBTS 2 FOR 25C**

**GROWERS UNIT, 3 CORMS & 100 BBTS. FOR \$10.00**

## **FROM MRS. GEO. KINYON**

(That grand old glad lady from Gladwin, Mich., who is young in mind and spirit, and is known throughout the glad world)

**JOY ISABELLE:** Honor X W. H. Phipps X Baby Betty) Delicate light pink with good spacing, facing, and texture. Stem medium weight; straight as a ramrod. Grows about 54 inches; with 24 inch flowerhead and one of the finest commercials ever.

**L. 80c; M. 60c; S. 40c; BBTS 10 FOR 80c**

10 of anything at 8 times the unit price.

**MARY KATHLEEN:** The clearest and purest white formal that I grow. 54 inches field height; with a 23 inch flowerhead, opens 10 easily, slightly ruffled snowwhite florets, and as early as Anna Mae.

**L. 20c, M. 2 FOR 25c, S. 3 FOR 25c; BETS AT \$3.00 PER 100**  
Growers units available on request.

**MARGARET MARIE:** Nice ruffled and pointed petalled shrimp pink; with darker throat, that has won blue ribbons in many shows. One of the finest commercials in the planting, and in our opinion, one of Mrs. Kinyon's finest introductions.

**L. 20c, M. 2 FOR 25c, S. 3 FOR 25c; BETS AT \$3.00 PER 100**  
Growers units available on request.

## CO-INTRODUCING WITH ROGER ARNETT

**NANCY:** A top scoring glad in two Trial Grounds, Best seedling in four shows, American Home Achievement Medal Winner, but chief value is, one of the finest commercial reds, in the 450 Class, perfect facing, perfect spacing, stands heat, 55 inches tall, 24 inch flowerhead, 19 to 21 buds, propagation and germination excellent. One you will eventually grow. L. \$1.00; M. 75c; S. 50c; Bbts 10 for \$1.00  
Growers units available on request.

## R H E T T   B U T L E R   1 9 4 6

The finest Scarlet early glad in commerce. Has done well in every part of the country, comes in for cutting in from 60 to 65 days; brings top prices for that reason. Just about the brightest thing in the garden, a perfect florists spike, for baskets, etc. It produces bulblets like mad, and they germinate 100%, and most will bloom the first year. It brought from \$1.50 to \$2.00 per dozen this season, because of its earliness, when later glads got down to 50c per dozen. It is a MUST for every grower who sells cut flowers.

L. \$1.00; M. 75c; S. 50c;
